Space and Naval Warfare Systems Command Awards Contract

NEW ORLEANS, LA — immixTechnology of McLean, VA is being awarded a Firm Fixed Price contract for \$1,259,092 to provide 40 software licenses for Object-Oriented Analysis and Design (OOAD) Tool Suite that provide an integrated suite of tools for the analysis and design of object-oriented component-based architectures consisting of Commercial Off the Shelf (COTS), Government Off the Shelf (GOTS), and custom components. The OOAD Tool Suite will also support architectural feasibility assessments and be interoperable with development tools to support the entire software development life-cycle for information technology programs managed by the Department of the Navy. This contract contains one base year and seven one-year option periods for licenses, installation, maintenance and training, which if exercised will bring the total cumulative value of the contract to \$9,312,369. Work will be performed in New Orleans, LA, and is expected to be completed by September 2009. Contract funds will not expire at the end of the current fiscal year. This contract was posted under full and open competition on the SPAWAR Business Opportunity Internet Home Page and two offers were received. The Space and Naval Warfare Systems Command is the contracting activity for this contract (N00039-01-C-1005).
