Space & Naval Warfare Systems Command Awards Contract

SAN DIEGO — Lockheed Martin, Maritime Systems and Sensors, Manassas, Va., is being awarded a \$20,972,472 cost plus incentive fee type of letter contract for the Advanced Deployable System (ADS). The award calls for Lockheed Martin to provide the ADS Program Office with the design and system engineering required to establish a Preliminary Design and an Integrated Baseline for the ADS variant that is to be deployed by the Littoral Combat Ship. This contract is to complete Technology Development with options for System Development and Demonstration and Initial Low Rate Production of the ADS for a Littoral Combat Ship – deployable variant. ADS is a ship-deployable undersea surveillance system employing distributed passive acoustic arrays linked to a receiving platform for data processing, evaluation and reporting. This variant of the ADS will be designed to be embarked on the LCS, and deployed from its deck. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$239,075,471. Work will be performed in Portsmouth, R.I. (32.1%); Manassas, Va. (26.3%); Melbourne, Fla. (11.5%); Pennington, N.J. (10%); Everett, Wash. (5.5%); Riviera Beach, Fla. (5.5%); Anaheim Hills, Calif. (3.0%); San Diego, Calif. (2.4%); McLean, Va. (2.3%); and Boston, Mass. (1.4%), and is expected to be completed by October 2005. Contract funds will not expire at the end of the current fiscal year. This contract was not competitively procured. The Space and Naval Warfare Systems Command is the contracting activity (N00039-04-C-0035).
