

Marine Corps Perspectives on Implementing FORCEnet

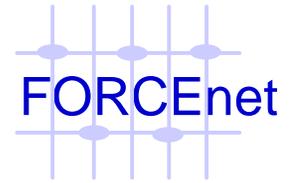

**Mr. Robert L. Hobart
Deputy Commander, C4I
Marine Corps Systems Command**

Presentation to the National Defense Industrial Association
October 24, 2003

Marine Corps Perspective

FORCEnet will serve as an enabler for the capstone concepts of Sea Power 21 and Expeditionary Maneuver Warfare, providing networked combat forces able to successfully perform the operational concepts of Operational Maneuver from the Sea (OMFTS) and Sustained Operations Ashore (SOA) within a complex , joint environment.
