Space & Naval Warfare Systems Center Awards Contract

SAN DIEGO -- Lockheed Aeronautical Systems Company of Marietta, Ga., is being awarded a \$6,913,026 research and development completion contract with cost-plus-fixed-fee pricing for the development of the littoral warfare Advanced Concept Technology Demonstration program. The contractor will develop Command and Control prototypes for technology evaluation. These component prototypes will be used to determine the full range of technical data such as equipment footprint, weight, power and performance, data rates, radar and communication ranges. Approximately 150 radar and communications antennas need to be consolidated into new phased array technology per ship and molded into an aircraft structure. This contract will be initially funded with research and development funds of \$1,407,078.75. The period of performance is from July 1, 1997 through June 30, 2000. This contract was competitively procured through the Broad Agency Announcement issued by Defense Advanced Research Projects Agency (BAA#93-04), and published in the Commerce Business Daily October 29, 1993. Contract source selection was performed by DARPA. Work will be performed at Marietta, GA. The Naval Command Control and Ocean Surveillance Center, Research Development, Test and Evaluation Division, San Diego is the contracting Activity (N66001-97-C-8605).
