Space & Naval Warfare Systems Center Awards Contract

SAN DIEGO -- NAVMAR Applied Sciences Corporation of San Diego, is being awarded a \$5,267,809 indefinite delivery type contract with cost-plus-fixed-fee pricing for research and development engineering and management support services for current and anticipated near term avionics, shipboard navigation systems engineering, communications systems engineering, and configuration management related to the Global Positioning System program. This contract contains two options, which, if exercised, will bring the total cumulative value of the contract to \$9,049,542. The period of performance for the base period is from July 1998 to July 2001. The option I period of performance will be one year if exercised, and the option II period of performance will be for an additional year if exercised. Work will be performed in San Diego. The contract will be funded with \$526,781 of non-expiring overhead funds. This contract was competitively procured. There were 25 firms solicited and one offer received. The Space and Naval Warfare Systems Center San Diego, is the contracting activity (N66001-98-D-5005).
