Space and Naval Warfare Systems Center Awards Contract

SAN DIEGO — ETEC Systems Inc., Hayward, Calif., is being awarded a \$13,477,348 cost-sharing-type contract, in which the contractor will share additional costs of \$13,323,877. The combined Government and contractor value of this contract is \$26,801,225. Work will include research and development of a Raster Multiple Beam prototype system for high-resolution, 45 nanometer (nm) pattern generation for both mask and direct-write lithography applications, with demonstrated extendibility to 32nm. Contract efforts will primarily support Defense Advanced Research Projects Agency's (DARPA) Microsystems Technology Office, Advanced Lithography Program. This three-year contract includes one, 12-month option which, if exercised, will increase the overall government award to \$16,247,891, with the contractor sharing total costs of \$16,094,420. The potential combined government and contractor value of this contract is \$32,342,311. The period of performance of the base contract is from June 30, 2003 through June 29, 2006. All work will be performed at the contractor's facility in Hayward, Calif. Contract funds will not expire at the end of the current fiscal year. This contract was competitively procured with thirty-seven proposals evaluated via the Commerce Business Daily under DARPA BAA# 01-36 and posted in CBDNet on September 07, 2001. The Space and Naval Warfare Systems Center, San Diego, Calif., is the contracting activity (N66001-03-C-8023).
