SPAWAR Systems Center San Diego Awards Contract

SAN DIEGO — *SAGE Systems Technologies, LLC, of Manassas, Va., is being awarded an estimated \$26,705,753 indefinite-delivery, indefinite-quantity, cost-plus-fixed-fee contract for technical services, system engineering, data processing and analysis of Command, Control, Communications, Computers, Intelligence, Surveillance, Reconnaissance (C4ISR) and Information Operations (IO) related technologies. The contract will support the Signal Exploitation and Information Management Division of the Space and Naval Warfare Systems Center San Diego (SSC San Diego), which is tasked with Technical Direction Agent support and co-lead engineering and technical support for the development, design, demonstration, integration and applications for tactical communications, network engineering and IT infrastructures. Work includes providing a cross-domain, Advanced Concepts and Exploitation Laboratory environment for supporting C4ISR & IO prototype development, integration, independent verification and validation, and operational field experiments. This contract will have a five-year base ordering period, starting on September 20, 2004 and ending September 19, 2009. There are no options. Work will be performed in San Diego and at other sites to be determined under individual task orders. No subcontractors were proposed. Contract funds will not expire at the end of the current fiscal year. Contract funds will be provided under individual task orders to the contract. This is a sole source award under requirements specified in the Small Business Administration 8(a) program, recognizing an Alaskan native corporation. SSC San Diego is the contracting activity (N66001-04-D-0081).

**SAGE Systems Technologies is a small business.*
