SPAWAR Systems Center San Diego Awards Contract

SAN DIEGO — Science Applications International Corporation (SAIC), Technology Services Company, of San Diego, Calif., is being awarded an \$18,262,324 indefinite-delivery, indefinite-quantity-type contract to perform development, technical, and engineering services for maritime and littoral area surveillance technologies. The work will support a variety of maritime and littoral area surveillance projects at the Space and Naval Warfare Systems Center San Diego. All work will be performed in San Diego. This is a five-year contract with no options. The period of performance is from October 29, 2002 through October 31, 2007. Contract funds will not expire at the end of the current fiscal year. This contract is follow-on to contract N66001-98-D-5009, and was competitively procured, with two offers received, through the SPAWAR e-Commerce Central web site. The Space and Naval Warfare Systems Center San Diego is the contracting activity (N66001-03-D-5006).
