Space and Naval Warfare Systems Center Awards Contract

SAN DIEGO — Sonalysts, Inc., of Waterford, Conn., is being awarded a \$25,566,130 indefinite delivery/indefinite quantity type contract for systems analysis and systems engineering services to provide large-scale naval warfare simulation support for command, control, communications, computer and intelligence (C4I) system research and development and command/control training. These services encompass simulation system applications to C4I research and development studies, exercises, and test and evaluation processes; applications to support command and control training; technical support for various users of simulation systems; design, development, and testing of simulation systems, interfaces, and models; and system installation, operation and maintenance. Simulation systems of principal interest are the Research, Evaluation, and Systems Analysis (RESA) facility, the Joint Simulation System (JSIMS) and the Battle Force Electromagnetic Interference Evaluation System (BEES). This contract contains no options. Work will be performed in San Diego. The period of performance is from September 3, 1999 through September 2, 2004. Contract funds will not expire at the end of the current fiscal year. This contract was competitively procured with 54 firms solicited and one offer received. Space and Naval Warfare Systems Center, San Diego is the contracting activity (N66001-99-D-0024).
